

Final Peer Review Checklist

Before submitting your review, consider the following:

- ☐ Is the research question, objective, or problem clearly defined?
- ☐ Does the manuscript make an original and meaningful contribution?
- ☐ Is the methodology appropriate and adequately described?
- ☐ Are the data, evidence, and analyses sound?
- ☐ Do the conclusions follow from the findings?
- ☐ Is the manuscript sufficiently transparent and reproducible?
- ☐ Are limitations appropriately acknowledged?
- ☐ Have relevant ethical considerations been addressed?
- ☐ Have conflicts of interest and funding sources been disclosed?
- ☐ Where applicable, has AI use been appropriately declared and reported?
- ☐ Have I clearly distinguished major concerns from minor issues?
- ☐ Is my review specific, constructive, evidence-based, and respectful?
